

Mazda Advanced Apprenticeship Programme

Based at Ruddington, Nottingham the Apprenticeship Programme is part of the Mazda Technical Academy.

Qualifications:

The awarding body used by the apprenticeship programme is The Institute of the Motor Industry (IMI). The apprenticeship is comprised of the following qualifications delivered over a 3 year period during one week blocks.

- NVQ level 2 progressing to NVQ level 3 in Maintenance and Repair of Light Vehicles
- IMI Technical Certificate level 2 and progressing to the IMI Diploma at level 3 in Maintenance and Repair of Light Vehicles
- Key and Core Skill Certificates
- Advanced Apprenticeship Completion Certificate

In addition to the above apprentice qualifications those who successfully complete the Mazda technical courses embedded in the 3 year programme will qualify as a Mazda Technician. There is also the opportunity to complete the Automotive Technician Accreditation (ATA) at Service Technician level. In addition to these industry recognised qualifications, the programme provides a structured progression into the Mazda Masters Technician structure, ensuring your future career development within the Mazda Dealer Network.

Benefits:

- Full time employment at a Mazda Dealership
- Block release training at the Mazda Technical Academy
- Continual assessment and development at your workplace
- Periodic welfare visits by your trainer at the workplace
- Exclusive training on the latest Mazda vehicles and equipment
- All qualification fees, accommodation and training courses fully paid for.
